Happy Father’s Day to all you Dads out there! Being a Father is special and comes with many unexpected challenges. You imagine all the routine things that go along with raising a child; changing diapers, feeding, bathing, rocking and holding them so they know they are loved. You also wonder how you are going to provide for all those needs as they grow. There are doctor appointments, braces, schooling, clothing, cars, insurance and other unforeseen circumstances that are too numerous to mention. Thank goodness they don’t all come at once and we have time to figure out ways to deal with each challenge as it comes. As the child grows over the years, we grow too. We learn to better understand them and become wiser and more creative in how to meet their emotional and material needs; hopefully teaching them to be young adults capable of dealing with the challenges that they will face as they get older.

I can’t forget the very important role played by Mothers! Mothers are very special in their own way that, we as fathers, don’t always quite understand. We try to, believe me. They tend to be more in tune with the kids than we dads know. Their caring and nurturing is a benefit to us, as well as the child. So happy belated Mother’s Day to all you Moms!

Always Growing,

### A Father's Day Prayer

God, bless all the fathers in the world. Father, we ask that You guide them to be good role models and loving to their children. We also ask that You help them to be a father like You are. Give them grace and patience to handle situations in a loving way.

Amen
